# Company Overview

At **AtoZWoodCompany**, we take pride in being a leading supplier of high-quality West African timber hardwood and softwood products. Based in Douala, Cameroon, our company has been manufacturing, retailing, and exporting timber for over 30 years, delivering excellence driven by sustainability, quality, and exceptional service.

We offer an extensive range of hardwood and softwood products, including wood logs, sawn timber, and fresh slabs in 30+ popular wood species such as Pine, Iroko, Teak, Mahogany, Padauk, Ebony, and more. Whether you need finished, ready-to-use timber for construction, furniture-making, etc. or want to buy fresh logs for firewood and home building, we provide a consistent and on-time worldwide supply.

Our state-of-the-art sawmill in Cameroon employs 100+ skilled woodworkers and has a monthly production capacity of 3,000 m<sup>3</sup>. This allows us to meet the growing demands of clients worldwide while maintaining superior quality and sustainability standards.

We proudly export timber globally, serving Asia, Oceania, North and South America, the Middle East, Europe, and the GCC countries, including Saudi Arabia, the UAE, Qatar, and more. Our reach extends to Turkey, Germany, Italy, Australia, Canada, Brazil, the UK, and beyond. No matter where you are, we can deliver our wood to your nearest port.

At **AtoZWoodCompany**, we believe in building long-term partnerships by consistently providing top-quality wood and exceptional service. We invite you to explore our complete range of wood products and look forward to becoming your trusted supplier for all your timber needs. Let's grow together!

# Sustainable Wood Harvesting Practices

AtoZWoodCompany specializes in sustainable timber production and export, ensuring economic growth while protecting the environment. We follow strict sustainability guidelines and practices in wood harvesting, manufacturing, and exporting, maintaining balance between business and nature conservation. We prioritize sustainability by minimizing carbon footprint and adhering to ethical labor and employee welfare practices. Besides providing fair wages and optimal working conditions to our workers, we maintain strong personal and career support to ensure their overall growth. Committed to protecting our ecosystem, we combine responsible forestry with worker wellbeing, ensuring a sustainable future for all. At AtoZWoodCompany, sustainability and ethical practices define everything we do, balancing environmental preservation with economic growth.

# Certification

We are a certified and licensed timber company involved in sustainable wood harvesting, manufacturing and export practices. Check out our certifications:

**AtoZWoodCompany** is Certified By ISPM (International Standards for Phytosanitary Measures) for using high-standard wood packaging material.

**AtoZWoodCompany** is Certified By CITES (Convention on International Trade in Endangered Species) for engaging in sustainable wood trading that does not threaten the survival of the endangered species.

**AtoZWoodCompany** is Certified By ICF (Inspection Certificate of Fumigation) verifying that all its wood products are routinely fumigated

# Our Products

AtoZWoodCompany is a wholesaler and global exporter of a wide range of wood products, including

## Round Wood Logs

---

We are the #1 exporter of African softwood and hardwood round logs taken fresh out of our local forests. Our customers trust us for high-quality, defect-free wood logs available in different sizes, width and length. Some popular wood log species we sell include Teak, Pine wood, Iroko, White wood, Mahogany, Ebony, Afromosia, Blackwood, and Zebrawood.

## Sawn Timber

---

We are the most trusted sawn timber company specializing in exotic African and international sawn timber products. As a leading sawn timber supplier and wholesaler offering worldwide shipping, we sell over 30+ species of high-quality, premium sawn timber, including Teak, Bubinga, Redwood, Okoumé, Wenge, Eucalyptus, Sapele, Black Limba, Rosewood, Bilinga, Pachyloba, Red Meranti, Padauk, Tali, Doussie, and Dabema.

# Wood Slabs

---

We have a vast collection of premium hardwood slabs available in multiple dimensions and wholesale prices. Some of our top-selling slabs include Azobe, Iroko, Afromosia, Mahogany, Poplar, Sapele, Black limba, Rosewood, Bilinga, and Pachyloba.

## Wood Chips

Wood chips are small wood pieces usually left as a by-product in the process of wood sawing and cutting. Wood chips are also sometimes separately made for special applications such as pathways. We can also produce bespoke wood chips in different sizes according to your project requirements.

## Wood Dust

Wood dust is much smaller and smoother compared to wood chips and is commonly used for making inexpensive boards and bedding for animals, among other things.

# Our Services

In addition to world-class timber products, we also provide comprehensive wood harvesting, processing, treatment, wood drying, brokerage, and transportation services

## Wood Manufacturing Supply and Export

We manufacture sustainable wood products and export to most locations worldwide (except Africa). We accept orders of all sizes, including timber orders as small as 1 or 2 containers. Special rates and discounts may apply to bulk orders

## Brokerage Service

We also provide timber brokerage service, allowing you to earn a side income by sending customers to buy from AtoZWoodCompany. You get paid for each successful referral that converts.

AtoZ
